

## Lead Like Me Training Held for PCPS

On October 2, 2018 the Ponca City Public Schools hosted a *Lead Like Me* training event at Trout Elementary. All seven of PCPS elementary schools had groups of students and teachers in attendance. *Lead Like Me* is a one-day training created by former teachers and administrators affiliated with Cooperative Council of Oklahoma School Association designed to teach student groups about leadership.

Students who have exhibited leadership qualities and leadership potential were chosen to attend the training and represent their site. Each student team attended the training along with a teacher leader from their school site.

Some of the sessions included: The power of teamwork, how to set leadership goals, how leaders show appreciation, and the roles and responsibility of leading. Teri Vogele, PCPS Associate Director of Elementary Curriculum, explained, "Our hope is that this training will have a lasting long term positive effect on students and that skills gleaned from this training will be shared with all students throughout the district."
