

Press Release

Ponca City Public School Student Tests Positive for TB

A Ponca City Senior High School student has tested positive for Tuberculosis (TB). The school district is cooperating fully with the Oklahoma State Department of Health and the Kay County Health Department. The health and safety of students is the district's highest priority, and school officials will be working collaboratively with both agencies as they conduct their investigation.

If you have any questions or concerns, you may contact the Kay County Health Department at 580-762-1641. General information concerning tuberculosis can be found on the Oklahoma State Department of Health website at: www.ok.gov/health.
