

Elementary CFA

Grade: K

Subject: Math

Power Standard: Make and Interpret Simple Graphs

Learning Target: Product

Level of Rigor: II

Assessment Instructions: Assessment Instructions: Part I-Student will use a bag of objects (bear counters, colored tiles, etc.) and must sort them. After sorting, they will make a graph (on a template provided), based on the amount of objects for each color. Part II-Students must verbally describe the information in their graph and answer questions about their graph (how many more blue than red, etc.)

Rubric: Rubric: 4-All objects are sorted correctly and student can interpret graph correctly.

3-

Student is able to make or interpret graph. 2-Student has an understanding of what a graph is. 1-

Student is unable to do at this time.
