

Elementary CFA

Grade: KDG **Subject: Math**

Common Core Goal: Students will understand addition as putting together & adding to.

Learning Target for CCG: Students will decompose numbers less than or equal to 10 into pairs in more than one way by using objects or drawings and record each decomposition by a drawing or equation.

Learning Target Verb & Level of Rigor: Product; Level III & IV

Assessment Instructions:

Given a strip of 10 squares or a set of 10 objects, student will:

- 1. Select a given number of objects to make a set (ex. 5, 7 & 9)**
- 2. For each set of objects, students will:**
 - **Decompose the number three ways**
 - **Draw each decomposition**
 - **Write an addition equation for each decomposition**

Rubric:

4: All sets, decomposition of numbers drawn, and equations are correct.

3: All sets, decomposition of numbers drawn are correct and at least one of the equations for each set is correct.

2: All sets and 2 decompositions for each set are correct. Few equations are correct.

1: Sets and decompositions show much confusion.
