

CFA**Grade: KDG****Subject: Math****Priority Standard: Measurement & Data; count, classify & compare measurable attributes****Learning Target: Classify/Compare****Level of Rigor: II****Assessment Instructions:**

Given a variety of objects, students will classify them into categories, count objects, and depict findings on a graph. (Students may be given a prepared graph or create their own.)

Using the graph, students will explain, orally or in writing, comparisons depicted with the objects. (ex. more, less, most, least)

Rubric:

Mastery: a completed graph with objects counted and depicted correctly; able to process the graph displaying an understanding of the comparison concepts of more and less.
