

## Elementary CFA

Grade: Kdg.

Subject: Math

Power Standard: Geometry

Learning Target: Reasoning

Level of Rigor: Level 4

**Assessment Instructions:** The students will be given 2 2-dimensional and/or 3-dimensional objects. They will then have to analyze/compare the objects by describing length of sides, # of corners, flat parts, and 2-D or 3-D.

**Rubric:** 4—The student compares/analyzes the objects by describing length of sides, # of corners, flat parts, and if they are 2-D or 3-D. 3—The student compares/ analyzes the objects and only gives 2 to 3 descriptions of the objects. 2—The student compares/analyzes the objects and only gives 1 description of the objects. 1—The student is unable to compare/analyze the objects.
